

Mitel Revolution

Business Landscape Has Changed

Regulations continue to evolve in accordance with major events

Smartphone ownership and usage continues to climb each year

Changing demographics create gaps in preferred methods of communication

Kari's Law

Order date August 2019

Compliance date February 2020

Requires direct 911 dialing and notification capabilities in multi-line telephone systems (MLTS)

Mitel Revolution integrated with a Mitel PBX enables support for Kari's Law:

- Send emergency call notifications to central location/managers
- Launch MiTeam Meetings conference call among designated crisis managers
- Deliver dispatchable location information to managers, as supported in the PBX

RAY BAUM'S Act

Order date August 2019

Compliance date for on-premise fixed devices January 2021

Requires an MLTS to send dispatchable location information given during a 911 call to the Public Safety Answering Point (PSAP)

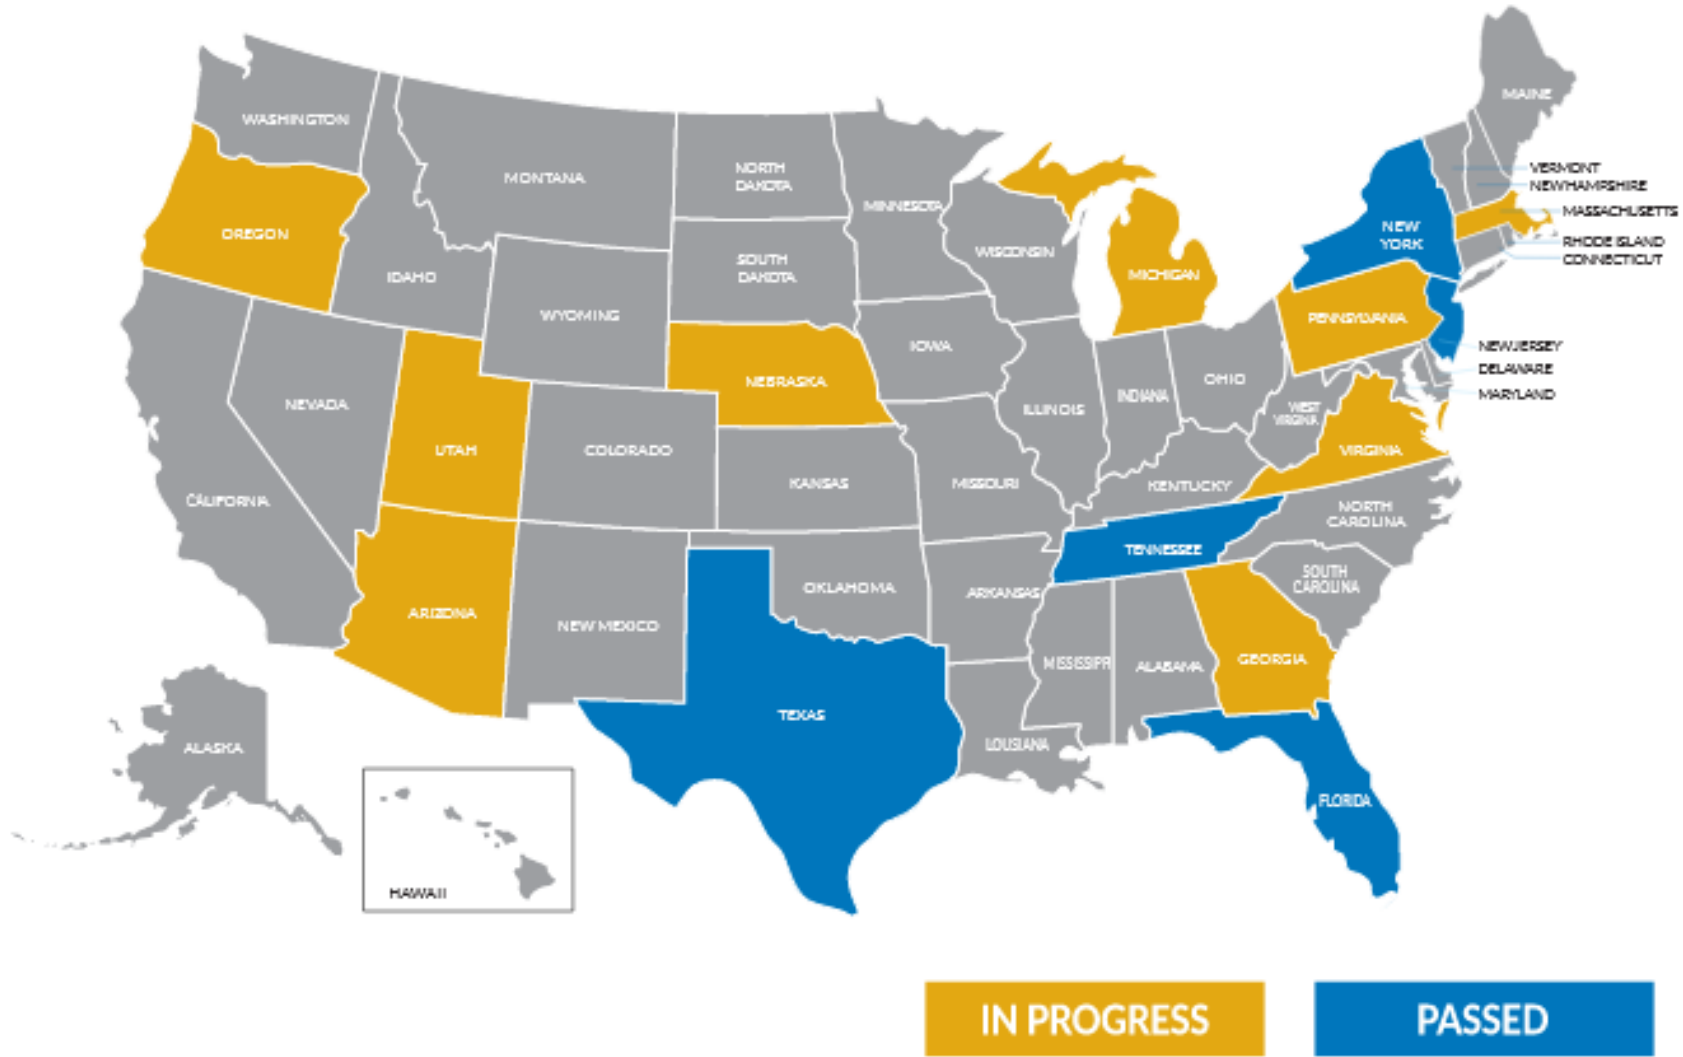

Mitel Revolution alone does not enable RAY BAUM Act compliance, but it supplements the capabilities of other RAY BAUM Act solutions:

- In parallel with PSAP notifications by other solutions deployed to meet RAY BAUM Act requirements, Revolution delivers dispatchable location information to responsible internal crisis managers, as supported in the PBX

Alyssa's Law

Mitel Revolution

Notifying the Right People, when it Matter the Most

In Building Paging

Enhance daily communication between users

Building Monitoring

Alert personnel of missing persons(s) or intruders with critical instructions, while notifying building security or local police.

Weather Emergencies

Notify staff of weather emergencies, office closures, or delays.

Emergency Dispatch

Integrate panic alarm buttons with mobile/paging devices to quickly dispatch police to the scene when emergencies strike.

Hazardous Conditions

Connect smart-building devices to activate notifications when hazardous conditions are identified.

IOT

Connect smart-building devices to activate notifications when door/motion has been detected on a certain areas.

Notification

A photograph of a modern brick and stone building with large glass windows. The building features a prominent arched entrance. On the left side of the building, the logo for "First Community credit union" is displayed in blue and red. The sky is clear and blue.

**First
Community**
credit union

Where communication must be...

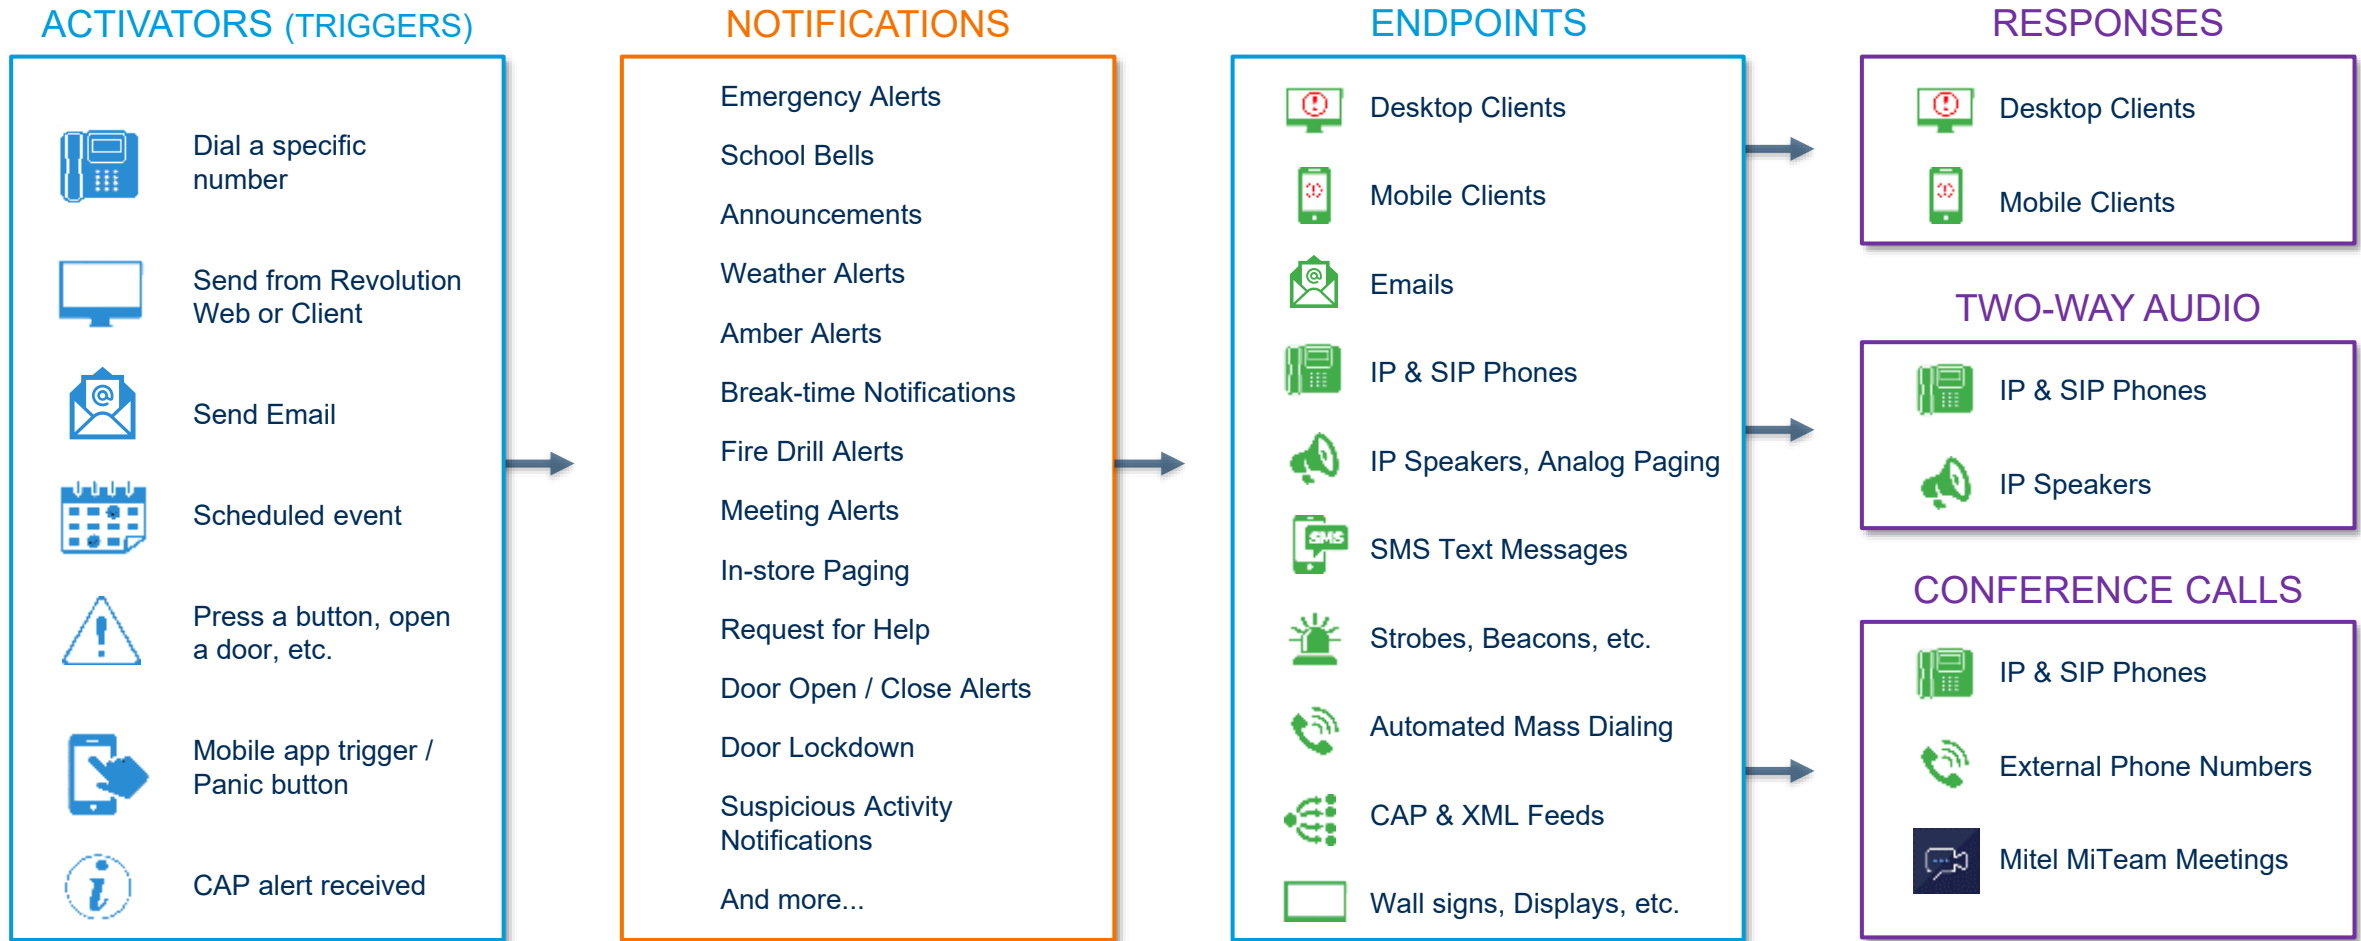

- Delivered quickly
- To many people
- Over multiple channels
- From a single system
- With acknowledgement
- Reported live & auditable

Site Security

Security Threat coordination

- ❑ Security and local authorities – instantly notify and collaborate with internal and external stakeholders
- ❑ Terror threats/Lockdowns
- ❑ 911-calls

Mitel Revolution: How it Works

Mitel Revolution Dashboard

The dashboard interface includes a top navigation bar with the Mitel logo, the word "Revolution", and the time "01:51:53 PM PDT". Below this is a secondary bar with "MTeam Meeting", "Active Shooter", and "Fire Drill" buttons. The main content area is divided into four sections: "QUICK NOTIFICATIONS", "RECENTLY SENT NOTIFICATIONS", "SCHEDULED NOTIFICATIONS", and "ENDPOINTS MAP".

QUICK NOTIFICATIONS
Send a quick one-off notification

- School Closed - Staff Dev Day
Aaron - School Closed [SMS,Email]
- Donuts
Aaron - Donuts Alert [Mobile,Desktop,Email]
